

Quick Start Guide

Wireless Configuration for Macs

Use this guide to set up wireless networking on a Macintosh running OSX 10.4 or higher.

STEP 1: Click on the **wireless icon** and select **“Other...”**

STEP 2: The **“Closed Network”** window will open.

In the **“Network Name”** box enter the network name that corresponds to your UAH affiliation.

All usernames and passwords used in this guide are case sensitive.

Guest5

Choose **“WPA Personal”** in the **“Wireless Security”** box.

In the **“Password”** box that appears, enter the corresponding phrase. All phrases are case sensitive. Check the **“Show Password”** box to make the phrase visible.

Student5: Go Chargers!

Faculty5: You will be tested

Staff5: Where is the coffee?

Guest 5: Welcome to UAH

Click **“OK.”**

STEP 3: Open your browser (Safari is recommended). The Mac Clean Access screen will appear on your start page. Enter your **Charger ID** and password. Your Charger ID is the text listed to the left of the **“@”** sign in your official UAH email address, and your default password is the first initial of your first name and the first initial of your last name followed by the last six digits of your **“A”** number. Choose **“UAH LDAP”** in the **“Provider”** box if it appears. Click **“Continue”** or hit the **“Enter”** key.

STEP 4: A **Logon Information** screen will appear letting you know that you have successfully logged on to the network.
