<p>The Easel offered by Georgia Expo is great for display sigs, posters, or flip charts. But they are not designed for use by students in a class environment and must be sturdy and durable. The specified easel is 15" taller and 14 lbs heavier which is necessary to support artwork of about 100" x 72", and hold it securely. Therefore the bid from Georgia Expo is disqualified due to the size, clips offered, weight and intended design. The bid is awarded to Barnesville Easels as the lowest bidder meeting specs.</p>
