

TOILET COMPARTMENTS & ACCESSORIES

The purpose of this information is to establish a standard for all toilet compartments and accessories used on projects for The University of Alabama in Huntsville. This standard shall be the basis of design and construction practices for all projects performed on campus.

Toilet compartments shall be solid plastic, through color, phenolic or stainless steel. Compartments shall be overhead braced, floor mounted or hung from overhead structure. All urinal screens shall have floor to ceiling post for stability. All compartments shall have stainless steel, continuous mounting brackets.

Toilet accessories shall include the following:

Stainless steel finished, Excel "Xlerator" hand dryer, 120v, minimum one (1) per room.

Toilet paper dispenser shall be double roll, side-by-side, provided by Owner, installed by Contractor (one per fixture).

Soap dispensers shall be provided by Owner, installed by Contractor, 1 per lavatory.

Paper towels dispenser shall be provided by Owner, installed by Contractor, minimum two (2) per room.
