Report of Independent Auditors

To The Board of Trustees of The University of Alabama:

In our opinion, the accompanying statements of net assets and the related statements of revenues, expenses, and changes in net assets, and of cash flows which collectively comprise the financial statements of The University of Alabama in Huntsville (the "University"), a campus of The University of Alabama System, which is a component unit of the State of Alabama, present fairly, in all material respects, the respective financial position of the University and its discretely presented component unit at September 30, 2008 and 2007, and the respective changes in financial position of the University and its discretely presented component unit, and the cash flows of the University for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As discussed in Note 1, the financial statements of the University are intended to present the net assets, changes in net assets and the cash flows of only that portion of the business-type activities of the financial reporting entity of The University of Alabama System that is attributable to the transactions of the University. They do not purport to, and do not, present fairly the net assets of The University of Alabama System as of September 30, 2008 and 2007 and its changes in financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 3 through 12 is not a required part of the basic financial statements but is supplementary information required by generally accepted accounting principles. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.
