Student Identification / Campus IDs

<http://www.uah.edu/oit/getting-started/for-students/67-main/its/666-campus-ids>

There are two additional IDs that will be important to you as you progress through your program of study. The first is your "A" Number which is unique to each student and will serve to identify you throughout your time on campus.

Additionally, you will also be provided with a Charger LDAP ID which serves as the base of your official uah.edu email. Typically the format consists

of your initials followed by a 4 digit sequence number (e.g., xxx0001). Your Charger ID is used to sign in to myUAH, wireless network, Canvas, Google Apps, and ITS. Your default password is your first initial, last initial, last 6 digits of your A Number (eg: xx3456748). Both your A Number and your Charger ID will be mailed to you in a letter from the University.

If you encounter any problems, please contact the OIT Help Desk at 256-824-3333 or helpdesk@uah.edu.

EMERGENCY INFORMATION

UAlert

<http://www.uah.edu/ualert>

UAlert is UAH's emergency notification system. UAlert is a comprehensive communications solution that allows the University to quickly disseminate an urgent message through multiple communication methods including: voice messages to cell, home and office phones, text messages to cell phones, email messages, as well as the University's social pages. As a student you have already been automatically included in the UAlert system. To modify your alerts, please visit the UAlert webpage.

Outdoor Sirens

The Huntsville-Madison County Emergency Management Agency tests the outdoor warning sirens at noon on the first Wednesday of each month. The test usually last only a few seconds. The outdoor sirens are not part of UAlert, but we encourage you to take a moment when the sirens are tested to consider what your actions would be in the event of an actual tornado warning. Familiarize yourself with the yellow-labeled protective areas in the campus buildings you visit regularly.
