I understand the importance of not deviating from my advisor’s recommended course schedule when I register for my classes on the web. I also understand that failure to discuss changes I make to my current schedule (or future schedule) may result in delays that could adversely affect my projected graduation date.

I understand that I must make a grade of “C-” or better on ALL prerequisite courses. Failure to obtain a “C-” or better will result in having to repeat the course. I acknowledge and understand the College of Engineering Academic Progress Policy.
