Promoting DL Opportunities at UAH

For the last 2 years, Distance Learning COE at UAH has travelled to Montgomery, Alabama to participate in the annual Education Fair held on the Maxwell Air Force Base. This year, September 23 was selected for the all-day promotional event, and UAH was well-represented again, receiving a large number of total visitors. **Dr. Sherri Carson (at right)** as well as **Ms. Kirsten Levy** from COE DL staffed the UAH DL booth, handing out promotional materials on DL courses and programs as well as fielding inquiries from potential UAH students of all ages.

If your company has promotional opportunities such as educational recruitment fairs in and out of the state, please contact Dr. Carson (sherri.restauri@uah.edu) to let us know!

DL Registration & Course Procedures

Distance Learning Procedures

- The **DL lecture capture (video) of your class** is typically posted within one hour after the scheduled class time. If there is a delay in posting, this is due to post-production needs for the class. **Allow 24 hours** M-F prior to notification of the DL office of no posting for your class. Should you experience problems with accessing your video, please contact our **DL Student Helpdesk** at DLHelp@eng.uah.edu or 256-824-6563. Leave us your name, course ID, and specific session number/date.

- All videos captured by DL **are offered via Internet access** through our Mediasite web server:

<http://uahengdl.uah.edu/mediasite/Catalog>

Assignments & Examinations

- **Assignments** should be submitted to your instructor via email, Angel, or other designated delivery method noted by faculty member. Graded assignments will be returned via Angel, email to DL student's UAH Google Apps email address, local student mailbox, or classbox (located in room TH N154). Please refer to your class syllabus for procedures for assignment submission and retrieval in each course.

- **Exams** are professionally proctored at the DL office for local students by appointment only. These should be scheduled through Ms. Luke and are held every weekday starting at 9:30 am or 1:30 pm. Remote DL student exams must go through a designated proctor. Students are responsible for identifying the proper proctor at their location and submitting the proctor's name and contact information to Ms. Luke. She may be reached at (256) 824-6976, and at luke@eng.uah.edu. DL contacts and certifies proctors. Exams are sent to proctors with instructions for administration.

Registration Procedures

- Complete DL [registration form](#) *in full* each term.
- Use your A# (UAH ID number), *not SSN*.
- Remember to use your UAH email address.
- Signatures at bottom of form are required.
- Late charges apply for all late registrations or late payments.
- If your company covers tuition, all information concerning billing must be included with registration to Bursar.
- Students are responsible for obtaining required textbooks; you may do so at the UA-Huntsville bookstore at: <http://www.uah.bncollege.com>
- DL UAH students should receive a **Welcome email** from the Distance Learning Office at the beginning of each semester. If you do not receive an email from us, please contact us (DLHelp@eng.uah.edu) so that we may assist you in starting off successfully in your course.

DL PROGRAM SPOTLIGHT

This issue we are highlighting the use of distance learning and smartroom technologies for purposes that fall outside of the standard DL classroom (if there is such a thing). The use of the DL classrooms has expanded tremendously, to include the list at right along with a large number of other possibilities. If interested in reserving a room, just let us know- <http://www.engdl.uah.edu/calendar.php#DLroomschedules>

Alternative Uses of DL Rooms:

- Make up missed lecture
- Pre-recording lectures
- Extra learning material/depth expansion on topic
- “Flipping” class to hands-on format
- Exam review pre or post
- Recording guest lectures/ students presentations
- Technology training, & more

Using Educational Technologies to Improve Student Learning

**-Dr. Paul J. Compton
Professor, Systems Engineering**

Freshouts to VPs, mechs, aeros, electrical and industrials; you can put a few software types and a math major into the mix to spice things up. Teaching in the graduate systems engineering and engineering management programs can be pretty exciting when you have this kind of student mix. Each of them brings different experiences and expectations to the class. Unfortunately this can also make it challenging when you're addressing some of the more advanced concepts. There is always a chance that some of the class will not have had those critical statistical tools, or maybe that did learn them – 20 years ago.

This year we are taking advantages of both the course management software and our distance learning capabilities to provide *supplemental learning venues* to help make sure all the students have the right backgrounds. Students in the new Systems Engineering Decision Analysis course will be able to *take online assessment to make sure they have the right background to handle the advanced topics*. The assessment can then recommend supplemental venues to help address any weakness the individual student may have. Using a mix of supplemental presentations, reference articles, and websites, we can now target specific materials *to match each students needs*. Now we can focus more class sessions on the advanced concepts and use our mix of educational technologies to support individual students.
