## ***NEW COURSE OFFERING FOR SUMMER 2011***

Dr. Eric Sholes is offering a new elective this summer—EM 679, **Managing Human Capital in High Technology Organizations**. Dr. Sholes is a recent Ph.D. graduate whose dissertation topic was “**The Effect of Conative and Affective Traits on the Development of Occupational Expertise of Civilian Department of Defense Scientists and Engineers.**” Dr. Sholes has been interested in the development of expertise and how to best encourage a formal development approach to becoming a domain expert.

The new course will use some of Dr. Sholes’ research work paired with the basic knowledge from EM 660 to offer practical methodologies for encouraging and facilitating expertise development. Dr. Sholes suggests that even armed with the knowledge of engineering management theory, many managers experience difficulty in harnessing human potential to optimize value creation within their organizations. This course is designed to establish the practical skills required to effectively manage knowledge workers.

The objectives of this course are twofold. The first objective is to present advanced engineering management topics related to the development and management of knowledge workers. The second objective is to educate students to develop and execute practical and actionable plans to develop and manage knowledge workers. This course will introduce best practices in employee recruiting, performance evaluation, employee development, and retention.

## ***Viewing Statistics for Distance Learning Lecture Capture: Classic Player Versus Silverlight***

During the Spring 2011, DL at UAH responded to your requests for viewing of lecture capture content in 2 separate manners—the Classic Player, which we have used for several years, and the newest player, called **Silverlight**. In SP11, we made available the option to view your class content in either of these 2 viewer options. We were interested in seeing what the usage of these new tools were, so we tracked each month’s access across each player during the Spring 2011 semester. Results are displayed at RIGHT. Clearly, our newest media viewer, **Silverlight**, has grown dramatically in popularity with our Mediasite content viewers.

# NEW DL Registration & Course Procedures

**PLEASE NOTE:**  
*Distance Learning students must register and drop/add courses through the Distance Learning Administrative Office*

## UPDATED—PLEASE READ OUR NEW Distance Learning Procedures

- The **DL lecture capture** is typically posted within 1 hour after the scheduled class time. If there is a delay in posting, this is due to post-production needs for the class. ***Allow 24 hours*** M-F prior to notification of the DL office of no posting for your class.
- Beginning Summer 2011, all videos captured by DL **will be offered via Internet access ONLY** through our Mediasite web server

<http://uahengdl.uah.edu/mediasite/Catalog>

- **Assignments** should be submitted to your instructor via email, via Angel, or other designated delivery method noted by faculty member. Graded assignments will be returned via Angel, via email to DL student’s UAH Google Apps email address, or via local student mailbox or classbox (THN 154).
- **Exams** are proctored from the DL office for local students by appointment only. These should be scheduled through Ms. Luke and are held every weekday starting at 9:30 am or 1:30 pm. Remote DL student exams must go through a designated proctor. Students are responsible for identifying the proper proctor at their location and submitting the proctor’s name and contact information to Ms. Luke. She may be reached at (256) 824-6976, and at [luke@eng.uah.edu](mailto:luke@eng.uah.edu) .

DL contacts and certifies proctors. Exams are sent directly to proctors with instructions for administration.

# DL Students—Please keep your responses coming!

**W**OW! Thanks so much for all of your feedback on our previous online surveys we have provided. Please keep your feedback coming by responding to these surveys each term—we ARE LISTENING!

## **HISTORY OF DL SURVEYS**

In Summer 2011, we began requesting feedback from our DL students through our **DL Student Experiences Survey**. In this survey, we collected information relating to your satisfaction with your DL experience, your suggestions for improvement, along with information regarding your standard technology usage. By administering and evaluating responses to these surveys, we strive to be able to bring you more personalized DL services, designed to meet your needs.

If you have not yet evaluated your DL course from the previous term, or for a recent semester, please take a few moments to do so by accessing the following website:

[DL Student Experiences Survey](#)
