DL Student Experiences Survey

Each semester, we request feedback from our DL students through our DL Student Experiences Survey. We collect information relating to your satisfaction, suggestions for improvement, and your standard technology usage. By evaluating responses to these surveys, we strive to be able to bring you more personalized DL services, designed to meet your needs. You should receive an email from our DL Administration with a link to this survey. You may also use the link below to complete a survey on a recent DL course in which you were enrolled, including in recent terms past. Thank you for your feedback!

Below, inset: One of our fabulous DL faculty members, Dr. Jim Swain, teaching and recording live to a class full of students.

Above: A view of one of Dr. Swain’s lectures from a DL student’s perspective, shown here in the Classic Player media player view.
New features mark a more holistic approach to user-generated content with recording at the desktop, search-based catalogs, and unprecedented customization.

As announced in the Fall 2012 DL newsletter, Sonic Foundry, Inc., the trusted market leader for lecture capture, enterprise and event webcasting, recently unveiled several significant new Mediasite lecture capture features. The most notable of these new developments is the ease with which an enterprise (or widespread adoption model) approach to creating, managing and distributing video-based instruction and user-generated content (UGC) may now be made available to faculty, staff, and even students. This upgrade allows users to record content (audio, video, slide content, real-time ink annotations, and more) from the convenience of their desktop or laptop, or even mobile device. Further, faculty members will now have the ability to control content deployment, and even make edits to content after capture is completed.

This major upgrade to Mediasite 6.1 is scheduled for the 3rd week of December for UAH Distance Learning’s group, and we look forward to reporting back to you on how our initial Spring 2013 pilot with these new features works. Training and support documents are available from the Distance Learning office, as well as on our website.

If you are a UAH faculty or staff member and are interested in testing out the new software option with anytime, anywhere functionality, please let us know.

For the full length article on this pending software upgrade, please visit Mediasite 6.1 Upgrade Information.

This upgrade allows users to record their own content, such as:

- Audio
- Video
- Slide content
- Real-time ink annotations
- and more

from the convenience of their desktop or laptop, or even mobile device.

Below: Image depicting some of the content that may be captured by faculty at their desktops or mobile devices, along with examples of different formats for displaying.
DL Program Spotlight: Student Engagement

3 Important Ways to Keep Your DL Students Plugged IN to your DL Class:

⇒ **Embed Questions**
⇒ **Quiz on content from the lecture**
⇒ **Flip the classroom lecture model**

**DL Faculty:** Ever wondered how to increase your students’ level of engagement in your distance learning class? This topic has been researched in numerous refereed and internet publications over the last 5 years, and varying suggestions exist. So what does “student engagement” (SE) really mean, particularly in highly diverse academic disciplines? Essentially, SE in Higher Education links student outcomes (achievement, learning, satisfaction, and others) to faculty practices inside as well as outside of the classroom. (See this article from EDUCAUSE for an in-depth view of defining elements relative to SE). With many of the DL faculty teaching at University of Alabama at Huntsville incorporating lecture capture with the Mediasite system into their online courses, and hoping to increase all 3 of these student outcomes, we asked: What are means for encouraging SE in these classes, when viewing online? Below are the top 3 suggestions that were found, applicable to faculty and students alike. These 3 touch on at least 5 of the **7 Principles of Good Practice** (see: [http://tls.vu.edu.au/learning_and_teaching/guidelines/VU4/Chickering%20and%20Gamson%201987%20VU%204.pdf](http://tls.vu.edu.au/learning_and_teaching/guidelines/VU4/Chickering%20and%20Gamson%201987%20VU%204.pdf))

1. **Embed a question** that will need to be responded to in class the next day (or have a phrase of the day). Make that content essential—this only works if the students MUST use that content to participate at the next activity.

2. **Make it mandatory to view by adding in a quiz,** to be completed during the class. (Keep in mind—this needs to be noted up front, in your syllabus!) Post the questions at certain points in your captured lecture, or post a link to it while teaching, and have students complete and submit electronically.

3. **Flip your class** (give the background on theory and such through lecture capture, and use your face-to-face time for the interactive activities that can be completed in person). Consider group work activities, mini-group presentations on topic overviews/research/news findings, mini-student presentations, or problem-solving collaboratively.
Distance Learning Procedures

The DL lecture capture (video) of your class is typically posted within one hour after the scheduled class time. If there is a delay in posting, this is due to post-production needs for the class. Allow 24 hours M-F prior to notification of the DL office of no posting for your class. Should you experience problems with accessing your video, please contact our DL Student Helpdesk at DLHelp@eng.uah.edu or 256-824-6563. Leave us your name, course ID, and specific session number/date.

All videos captured by DL are offered via the Internet through our Mediasite web server:

http://uahengdl.uah.edu/mediasite/Catalog

Assignments & Examinations

Assignments should be submitted to your instructor via email, Angel, or other designated delivery method noted by faculty member. Graded assignments will be returned via Angel, email to DL student’s UAH Google Apps email address, local student mailbox, or classbox (located in room TH N154).

Please refer to your class syllabus for procedures for assignment submission and retrieval in each course.

Exams are proctored at the DL office for local students by appointment only. These should be scheduled in advance and are held every weekday starting at 9:30 am or 1:30 pm. Remote DL student exams must go through a designated proctor., and are only sent after your designated proctor has completed our Proctor Certification Process.

Students are responsible for identifying the proctor at their location and submitting the proctor’s name and contact information to Ms. Luke. She may be reached at (256) 824-6976 or at luke@eng.uah.edu. More information on our DL Proctoring can be found at our DL website, under Student Support.

Registration Procedures

Complete DL registration form in full each term.

• Students are responsible for obtaining required textbooks; you may do so at the UAHuntsville bookstore at: http://www.uah.bncollege.com
• PLEASE NOTE: UAH DL students should receive a Welcome email from the Distance Learning Office at the beginning of each semester. If you do not receive an email from us, please contact us (DLHelp@eng.uah.edu) so that we may assist you in starting off successfully in your DL course.
Meet the DL Helpdesk & Videography Technical Staff

Ever wonder who is behind the camera, recording your Professor’s class? Or who answers the DL Helpdesk phone or emails? We decided to special feature this awesome group from our DL department in this newsletter, with 2 questions aimed at how they approach their jobs—and therefore, how they best serve you. Read below to find out more about Kirsten and Jordan, the first 2 DL Helpdesk Staff to be featured. Look for future special features relating to our staff in upcoming publications.

Kirsten

1. Why is your job in DL important?
My job helps ensure that DL students have access to the course material online, work is returned to them from the faculty, and various other tasks that help keep us running smoothly.

2. What is the most rewarding thing you have done in relation to this job?
Having students say, "Thanks so much for doing this, I wouldn't be able to take a class without the service you help provide."

Jordan

1. Why is your job in DL important?
My professional goals are situated within academia, so by working with Distance Learning I gain an appreciation for the "behind-the-scenes" aspect that goes into this nontraditional approach. Since my passion lives through learning it is exciting to me working with Distance Learning because I am essentially a footsoldier for education, which I personally couldn't be more appreciative to be apart of. It is so satisfying to know that at the end of the day, week, and semester that I played a critical role in the process of someone's education, which is something no one can ever take from you.

2. What is the most rewarding thing you have done in relation to this job?
I believe the most rewarding aspect of working with Distance Learning are the various videographer opportunities. I have been exposed to such an eclectic range of topics, from Robotics to Helicopters and beyond, that the entire job itself transcends that "boring & mundane" threshold of repetitive procedures and set-ups. I honestly look forward to most mobile cart set-ups because I can't wait to be exposed to something new. The variety is such a well-rounding and enriching experience.
