

Chen Zhang

Graduate Research Assistant

Department of Chemical and Materials
Engineering

BIO:

Mr. Chen Zhang is a chemical engineering master's student at the University of Alabama in Huntsville. He has been doing thesis research with Dr. James E. Smith Jr. on using osmotic shock, an energy efficient method, to extract oil content from algae. He received his B.S. degree in chemical engineering at Pennsylvania State University, where he also received a minor degree in engineering entrepreneurship.
