

Richard Tyson

Principle Research Scientist

UAHuntsville Propulsion Research
Center

BIO:

Mr. Richard Tyson, the UAHuntsville PM has over 40 years of experience including technology implementation for space programs, systems engineering, and management of major space programs including, as a relevant example, his recent position (2005-2010) as the Technology Manager for NASA's Ares Project Office. In almost every phase of his career, he has been directly responsible for technology portfolio selection using quantified systems analyses. He has held the position of Principal Research Associate at UAHuntsville since 2003 qualifying him to be able to facilitate all activities across the breadth of the proposed program.
