

UAH ASCE

Why Join?

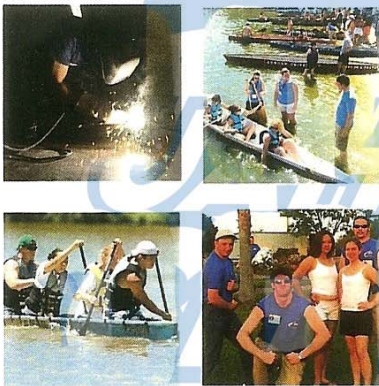

We firmly believe that just gaining a degree isn't enough, and we are committed to offering students the opportunity to grow beyond the classroom.

The UAH Student chapter of the American Society of Civil Engineers is a great way to make professional contacts, to gain hands-on experience you won't get in the classroom, or to just meet other students. By becoming a member of our chapter, you'll receive a free membership to the National ASCE and you'll gain access to all the resources it has to offer. Your only obligation is to attend chapter meetings and to pay your annual dues.

Is this just for Civil Engineers?

No! In fact, what makes Team UAH one of the most successful chapters in the nation is the unique perspective offered by all of our mechanical, optical, chemical, and industrial engineering team members.

If you're interested in civil engineering and want to learn more about the field, or if you're just looking to be a part of something fun and unique, please stop by and check it out.
