

HAZARDOUS WASTE LABELING & STORAGE GUIDELINES

SAFETY COMPLIANCE STEPS

1. Area is identified by sign
2. Containers are closed
3. Containers are properly labeled and hazardous waste codes are displayed.
4. Secondary containment
5. Store incompatible waste separately
6. Containers are free of leaks
7. Containers are compatible with the waste

When the container is ready for disposal, please put in pick-up request in CampusOptics.
