Monday	<p><u>I Love You Ritual: Here's the Bunny</u></p> <p>Check our class YouTube playlist to practice and review this I Love You Ritual with your child throughout the week. It can be done with siblings as well! This is an I Love You Ritual review!</p>	<p><u>Language group with Ms. Robin</u></p> <p>Check your email for a language group lead by Ms. Robin.</p>	<p><u>My Home Seek and Find Activity</u></p> <p>Have fun running around the house with your child and identifying specific areas of the house where you do certain things, like "find the place where you sleep at night." You can also hide items in different parts of the house for your child to go seek and find! *See notes below for some examples.</p>	<p><u>DIY Shape Puzzle Matching Activity</u></p> <p>All you need to create this simple activity is paper, a marker, and scissors. Create and cut out a variety of shapes for your child to identify. Then, cut those shapes in half or whatever way you choose. Spread out all the cut-out shape pieces on the floor and have your child match the pieces to create a shape. Finally, have your</p>	<p><u>Trap, Tape, and Rescue the Animals Activity</u></p> <p>Grab some of your child's favorite toy animals or people and trap them with tape! Have your child rescue the toys using scissors to cut the tape or just his/her little hands! Whatever your child is ready for! *See notes below for what this activity looks like.</p> <p>AND/OR</p> <p><u>Holey TP Roll Threading Activity</u></p>	<p><u>Fork Painted Bear Craft</u></p> <p>Have your child create a super cute bear craft while experimenting with a unique way to paint! *See notes below for more details.</p> <p>AND/OR</p> <p><u>STEM Activity: Matching Lids to Jars</u></p> <p>Find as many jars or different types of container with lids in your house and spread them all out on the floor. Have your</p>
Tuesday	<p><u>I Love You Ritual: Here's the Bunny</u></p>	<p><u>Paper Towel Roll Letter Matching Activity</u></p> <p>All you need to create this activity is an empty paper towel roll, stickers, and a marker. Your child will enjoy matching the letters</p>	<p><u>Jump and Measure Activity</u></p> <p>Have your child jump and use a piece of tape or draw a line with chalk (if outside) and mark how far he/she jumped. Then, show your child how to measure how far he/she</p>	<p>Spread out all the cut-out shape pieces on the floor and have your child match the pieces to create a shape. Finally, have your</p>	<p>Whatever your child is ready for! *See notes below for what this activity looks like.</p> <p>AND/OR</p> <p><u>Holey TP Roll Threading Activity</u></p>	<p>Find as many jars or different types of container with lids in your house and spread them all out on the floor. Have your</p>

		<p>on the stickers to the letters written on the paper towel roll! *See notes below for what this activity looks like.</p>	<p>jumped. Make sure you mark a starting point for your child as well. You can have your child experiment with different types of jumping and then measure all the different ways. Measure using something easy for the child to understand, like blocks. Then, after lining up the blocks the distance of each jump, you can help your child count how many blocks he/she jumped. This is just an introductory activity on measurement so have fun with it!</p>	<p>child identify the shapes he/she put together. Do not be afraid to challenge your child with some new shapes he/she may not know! If your child is not quite ready for this, help him/her match the shape pieces and identify the shapes with your child.</p> <p>AND/OR</p> <p><u>Numbers Scavenger Hunt Activity</u></p>	<p>This activity just requires some empty toilet paper rolls and pieces of drinking straws or pipe cleaners to complete! *See notes below for more details.</p>	<p>child match the correct lid to each jar/container and put the pieces together. This may take some trial and error but that is okay! Help your child if he/she is struggling but be sure to give him/her a chance to solve the problem and use his/her little muscles first!</p>
Wednesday	<u>I Love You Ritual: Here's the Bunny</u>	<p><u>Read Aloud Stories on YouTube</u></p> <p>Check our class YouTube playlist for some fun and new stories for your child to</p>	<p><u>Lily Pad Leaping Activity</u></p> <p>Draw some lily pads outside on the ground with chalk (if weather permits) and have your child practice</p>	<p>Practice seeking, finding, and counting many different items you</p>		

		listen to being read aloud!	hopping like a frog to each lily pad. You can spread the lily pads out further for more of a challenge!	have at home with this fun numbers' scavenger hunt activity!		
Thursday	<u>I Love You Ritual: Here's the Bunny</u>	<u>Language group with Ms. Robin</u> Check your email for a language group lead by Ms. Robin.	<u>Go, Slow, Stop Game</u> Create your own green go, yellow slow, and red stop signs using whatever materials you have at home. Have your child use any type of movement to play this game. When you hold up the different colored signs, he/she must follow the rules of the sign. Have fun with this game and speed up the switching of the signs if you want to challenge/try to trick your child!	*See notes below for an example of this activity.		
Friday	<u>I Love You Ritual: Here's the Bunny</u>	<u>Family Friday Book Time</u> Curl up and pick a favorite book! Let your child	<u>Water Race Letter/Number Activity</u> This activity involves playing with water outside, having a race,			

		choose a book to read aloud and enjoy this time together.	and learning to identify letters, numbers, shapes, or colors (whatever your child is ready for)! *See notes below for more details.

My Home Seek and Find Activity (Monday)- See picture below for an example list of things to seek and find:

Create your own list or add additional items if interested!

Paper Towel Roll Letter Matching Activity (Tuesday)- See picture below for an example of what this activity looks like:

Use a variety of letters or just focus on the letters in your child's name!

Water Race Letter/Number Activity (Friday)- See picture below for an example of what this activity can look like:

A Water Race

to Learn Letters + Numbers

For this activity all you need are some buckets, water, a permanent marker, and foam squares (or plastic letter/number toys if you have them at home). One bucket will be filled with water and letters, numbers, shapes, and/or colors written on foam squares (or using whatever you have at home). Then you will have other buckets labeled with letters, numbers, shapes, or colors. Spread the two buckets far apart and have your child grab something out of the water bucket and run across the yard to put that item into the corresponding bucket. Work on whatever your child is ready for currently, whether that be identifying letters, numbers, shapes, or colors. You can modify this activity for your child however you need to! Here is a link to help explain this activity further if needed:

<https://inspirationlaboratories.com/water-race-to-learn-letters-and-numbers/>

Numbers Scavenger Hunt Activity (Math)- See below for a picture of an example list of what to look for on the scavenger hunt:

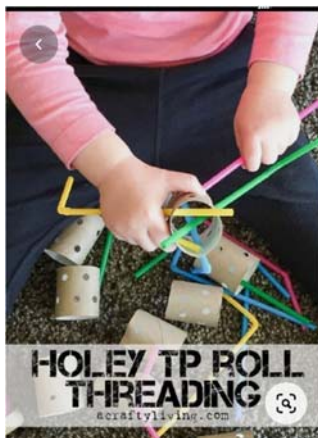

You can modify this however you need based on the items you have at your house. You also can work on counting more than or less than ten depending on what your child needs. The goal of this activity is to work on counting skills while playing a fun seek and find game!

Trap, Tape, and Rescue the Animals Activity (Fine Motor)- See below for some pictures of what this activity can look like:

Holey TP Roll Threading Activity (Fine Motor)- See below for picture of what this activity can look like:

Gather some empty toilet paper rolls and make some small holes in them (easiest if you have a single hole punch). Give your child some plastic drinking straws or pipe cleaners and have him/her thread them through holes in the toilet paper rolls. You can cut the toilet paper rolls in half and the straws (or pipe cleaners) in half to make everything smaller and more of a challenge to manipulate. This works on hand eye coordination skills! If you do not have any empty toilet paper rolls, you can use empty paper towel rolls or a colander from the kitchen.

Fork Painted Bear Craft (Science/Sensory)- See below for a picture of what this craft can look like:

Use whatever you have at home to complete this cute and fun bear craft! You can use brown paint if you have it or to add to the sensory experience and make it an edible craft... you can use chocolate pudding! Allow your child to have fun experimenting with a new painting technique!
