## WHY PURSUE HONORS IN NURSING?

The Honors College offers a specialized Honors upper-level curriculum for College of Nursing students. Honors students in Nursing have the option of completing the full 24 hour Honors Diploma or a 12 hour Honors Certificate. Benefits of Nursing in Honors include:

- ▶ Participation in nursing research and contribute to nursing science
- ▶ Opportunity to develop a clinical focus/cognate
- ▶ Publish Honors thesis through the UAH Salmon Library
- ▶ Honors Diploma/Certificate with thesis title printed on your academic transcript
- ▶ Positioning yourself competitively with future employers
- ▶ Gain readiness for masters and/or doctoral program
- ▶ Build a future in nursing research or nursing education
- ▶ Eligibility to live in Honors Residence Hall
- ▶ Developing friends through campus-wide Honors activities
- ▶ Service and leadership opportunities

## HONORS NURSING CURRICULUM

The specialized Honors Nursing courses are:

**NUR 307** is an Honors section which prepares the Nursing Honors student to select a research topic, develop a research question and secure a relationship with a nurse researcher who will serve as a research advisor. This course is taught in a seminar format.

**NUR 415** Honors Directed Research, The focus of this course is on development of a research methodology, securing Institutional Review Board approval if necessary and beginning data collection and preliminary data analysis. The seminar format will provide student access to expert researchers.

**NUR 407** is an Honors section which guides the student through data collection, data analysis, result development and thesis completion. Dissemination of results in a public setting is a priority goal for students taking this course.
