

UAH Honors College Special Seminars (HON 301)

FALL 2019

****ALL COURSES ARE WORTH 1 CREDIT HOUR****

H1: The Economics of Beer	H2: Rapid Prototyping with Raspberry Pi	H3: Honors Tuesday Talks	H4: The Future of Design	H5: The Bhagavad Gita: Yoga Philosophy and Practice	H6: How to Read the Environment
<p>Dr. Richard White Thurs @ 1pm</p> <p>Presents an overview of beer and its impact on history, from micro- to macroeconomics. Includes meeting local manufacturers and distributors.</p>	<p>David Chan Thurs @ 11:20am</p> <p>Learn how tech companies use simple Raspberry Pis to prototype future projects. All coding levels welcome, equipment supplied by Honors.</p>	<p>Various Instructors, Tues @ 4:20pm</p> <p>Honors' own Ted Talks: hear interesting lectures on a variety of topics. This low-key, pass/fail course is a great way to learn about anything and everything from distinguished faculty and guest speakers.</p>	<p>Dr. Paul Collopy, Mon @ 9:40am</p> <p>Introduces a variety of perspectives anchored in engineering design but reaching across disciplines to understand creativity as a fundamental aspect of human experience.</p>	<p>Dr. Susan Friedman, Fri @ 1pm</p> <p>Combine philosophical discussion with the practice of yoga by analyzing sections of The Bhagavad Gita and following yoga instruction from Dr. Friedman. No experience necessary. *</p>	<p>Dr. David Johnson, Tues @ 1pm</p> <p>Provides students opportunities to learn how to read landscapes, based on conceptual tools from cultural geography, environmental history, and literary scholarships. Will include field trips.</p>

***THIS CLASS WILL MEET FOR 80 MINUTES**
