

UAH Biowaste Packaging and Disposal - Instructions

1. Please place your properly closed biowaste bags into the large red bins on the left side of the biowaste storage room.
2. A properly closed biowaste bag will have no rips or tears, and the top will be knotted to prevent leaking.
3. If a bin is full, please place your bags into a bin with room for the lid to close fully.
4. The bins should be able to close fully. If all bins are full, please contact the Biosafety Officer for assistance.
5. If your items require freezer space, please place the biohazard bags into the freezer after ensuring that the bags are properly closed and have no rips, tears, or leaks.
6. Biowaste cardboard packaging boxes should not be used without permission from the Biosafety Officer.

For any questions regarding biohazardous waste disposal, please contact the Biosafety Officer using the contact information below.
