

Senate Resolution 08/09-05: Prerequisite Drop

Whereas students can enroll in classes prior to completing all the prerequisites for future classes, and

Whereas some students fail to successfully complete the prerequisites for classes in which they have enrolled, and

Whereas students failing to complete prerequisites must be individually contacted and dropped from classes, and

Whereas this process is time-consuming and prone to error,

Therefore be it resolved that

Upon completion of the recording of grades for a semester, students will be automatically dropped from any class for which they fail to complete the prerequisites successfully. Students may subsequently enroll for classes for which they do not have the prerequisites only with permission of the instructor and chair of the department.
