

A Bill Modifying Student Organization Funding Procedures

Whereas, the current Administration believes that funds allocated to students and student groups are most effectively used when used to advance student organizations, and

Whereas, the process Registered Student Organizations (RSOs) conduct in order to receive funding has recently been modified, thereby affecting how said funds are obtained, and

Whereas, previous administrations have awarded funds to offset traveling expenses for non-RSO-affiliated individuals based upon remaining funds under the lump-sum system, and

Whereas, the aforementioned expense compensation affects the amount of funds available to RSOs under the new on-demand system, which may affect the SGA's ability to provide RSOs with sufficient funding,

THEREFORE, Let it be hereby enacted by the Senate of the Student Government Association of The University of Alabama in Huntsville that:

1. The SGA cease its funding of individual travel expenses unless explicit evidence of an RSO's sponsorship and approval of the travels are presented with the relevant request forms to the Director of Organizational Funding.

Let it be further enacted that:

1. **Copies of this resolution be delivered to** Dean of Students T.J. Brecciaroli, Assistant Director of Student Life Jenny Russell-Clifton, and Director of Student Life Nikki Goode.

Presented to the Senate of the Student Government Association of The University of Alabama in Huntsville for its consideration on this, the 27th day of February, 2017, Jessica Eason presiding.
