The University of Alabama in Huntsville

A Bill to Improve the Intramural Fields

Whereas,

1. The intramural field is a vital aspect of student activity and recreation at The University of Alabama in Huntsville; and
2. The intramural field was heavily used in the 2020-2021 school year for socially distanced events hosted by numerous organizations; and
3. The intramural field has many holes, divots, and dips that have the potential to cause injuries such as rolled ankles and sprains to students participating in activities; and
4. The UAH Student Government Association has excess funding available for use due to the SARS-CoV-2 Pandemic;

Therefore, let it be hereby enacted that The Student Government Association of The University of Alabama in Huntsville shall:

1. Provide \$26,500.00 of the total \$32,219.60 to UAH University Recreation to fund the vast majority of a project to laser turf plane, aerate, float, seed, top dress, and roll the grass surface at the UAH Intramural Field (see Figure 1: Proposal).
2. Fund this project no later than September 30, 2021, to provide the pledged amount of \$26,500.

Furthermore, copies of this bill shall be sent to the following:

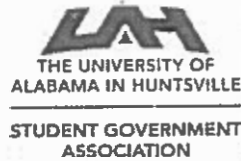

Spring 2021.B-Bill#1.S.21

Executive Vice President of Student Affairs, Dr. Kristi Motter; Dean of Students, Dr. Ronnie Hebert; Director of University Recreation, Sabrina Blackwood; SGA Advisor, Nikki Goode; SGA Vice President of Finance, Bradley Hudson
