CONDUCTING RESEARCH AT UAH

OneSearch:

- To get started with research, you can visit http://www.uah.edu/library. Conduct a general search of all of Salmon Library's resources by entering key words into the black bar on the library homepage labeled OneSearch.
- For direct access to library databases, visit http://libguides.uah.edu/databases.
- If you are accessing library resources at a distance from campus, simply login with your UAH Charger ID and password when prompted to gain access to all of the library's electronic resources.

Schedule a One-on-One Research Consultation @ Salmon Library:

- A research librarian will shape the consultation to fit your needs. They can talk to you about library resources, how to find your way in the stacks, how to cite information, how to design research goals, how to combine the big questions with the right tools, how to understand copyright issues, and more. Every big project is its own thing, and so every research consultation is unique. It can take 15 minutes or it can take an hour. It can be a single session or it can be three. Let them know what you need, and they will find a way to help you with your research.
- For information on how to schedule a consultation, visit: http://www.uah.edu/library/research/one-on-one

Contact a Subject Specialist:

Subject specialists are librarians who manage the Library's collections and track the library's holdings in terms of their subject focus. For help with subject specific research, contact:

- **Michael Manasco** - (256)824-6965 or michael.manasco@uah.edu
  Accounting, Business Administration, Economics, Marketing, Philosophy, Public Administration, Government Docs, Political Science, Religion, & Sociology

- **Charlotte Olson** - (256)824-6522 or charlotte.olson@uah.edu
  Education, History, Humanities, Literature, Music, Psychology, & Women's Studies

- **Belinda Ong** - (256)824-6432 or belinda.ong@uah.edu
  Atmospheric Science, Biological Sciences, Chemistry, Computer Science, Mathematics, Nursing, Physics, & Space Science
