

The Aerojet Rocketdyne Scholarship

The Aerojet Rocketdyne Scholarship is awarded to either an undergraduate or a graduate student with preference given to those majoring within the Colleges of Engineering or Science. The recipient must have an interest in pursuing academic studies or projects that would prepare them to pursue a propulsion-related career.

Gencorp Aerojet is an aerospace and defense company serving the missile/space propulsion and defense/armaments markets. Gencorp Aerojet established the Aerojet Rocketdyne Scholarship to benefit students at the University of Alabama in Huntsville.

This scholarship is a one-year award and is not renewable. The student must maintain a full-time course load (undergraduate - 12 credit hours, or graduate - 9 credit hours) and have a cumulative GPA of 3.0 or higher. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards.
