

Bryant Bank-Johnston Memorial Annual Scholarship

The Bryant Bank-Johnston Memorial Annual Scholarship was established in 2015 to award a first time freshman from Buckhorn High School in Huntsville, Alabama, who has declared Computer Engineering as a major. This student should be academically sound and also have participated in the Buckhorn High School band.

The Bryant Bank-Johnston Memorial Annual Scholarship was established in memory and honor of Kevin Wells Johnston, deceased brother of Bryant Bank's Mike Johnston. The preferences for a student who participated in Buckhorn's band and one who is a Computer Engineering major honor Kevin's participation in the Buckhorn band and his academic major while a student at UAH.

This scholarship is non-renewable.
