

## **The CFDRC Scholarship**

The CFDRC Scholarship is given in preference to an undergraduate engineering major who demonstrates academic merit, financial need, leadership potential, and contributions to the University and community.

The scholarship was established in 2006 by CFD Research Corporation, a Huntsville-based corporation, specializing in engineering simulations and innovative designs in the areas of Aerospace and Defense, Biomedical and Life Sciences, and Emerging Technologies.

This scholarship is renewable for up to three additional years. The student must maintain a full-time course load (12 credit hours) each semester. In addition, recipients must complete a total of 24 credit hours each academic year and have a cumulative GPA of 3.0 or higher to be eligible for renewal. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards.
