

## **The Carl T. Jones Engineering Scholarship**

The Carl T. Jones Engineering Scholarship is awarded to an undergraduate student who is enrolled in the College of Engineering with a preference for those majoring in Civil Engineering.

The scholarship was established in 1968. The Jones family established this scholarship in loving memory of Carl T. Jones, a member of a pioneer Huntsville family, who helped provide the extraordinary vision and leadership that fostered the city's growth. Mr. Jones graduated from the University of Alabama in 1929 with a B.S. degree in Civil Engineering. He served during World War II in Alaska and Europe, attaining the rank of full colonel. He served as a partner in G.W. Jones & Sons, and was a dynamic civic leader in attracting industry into Huntsville during the 1950s and 1960s. This growth transformed the area and led to the creation of UAH.

The Carl T. Jones Engineering Scholarship is non-renewable. Recipients must maintain a full-time course load (12 credit hours) each semester, and have a cumulative GPA of 3.0 or higher. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards.\*
