

The Jack R. Walker Scholarship

The Jack R. Walker Scholarship is awarded to a student majoring in Industrial and Systems Engineering, and is based on academic merit, citizenship, and leadership potential.

The scholarship was established in 1996 by Dr. Walker's family, colleagues, and friends as a tribute to his dedicated service as an associate professor of Industrial and Systems Engineering. He joined the UAH faculty in 1982 and retired in 1996. His contributions to the university were significant, and he was professionally recognized for his hard work and devotion to students.

This scholarship is renewable for up to three additional years. The student must maintain a full-time course load (12 credit hours) each semester. In addition, recipients must complete a total of 24 credit hours each academic year and have a cumulative GPA of 3.0 or higher to be eligible for renewal. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards.
