

## **The Lockheed Martin Scholarship**

The Lockheed Martin Scholarship is awarded to a student enrolled in the College of Engineering and is based on academic merit, citizenship, and leadership.

The scholarship was established in 1997. Lockheed Martin is a customer-focused global enterprise principally engaged in the research, design, development, manufacture, and integration of advanced technology systems, products, and services for government and commercial customers.

This scholarship is renewable for up to three additional years. The student must maintain a full-time course load (12 credit hours) each semester. In addition, recipients must complete a total of 24 credit hours each academic year and have a cumulative GPA of 3.0 or higher to be eligible for renewal. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards.
