

The Society of American Military Engineers Scholarship

The Society of American Military Engineers Scholarship is awarded to a junior or senior level undergraduate with preference given to engineering majors. The award is based on academic merit, citizenship, and leadership.

In 1995 the Society of American Military Engineers – Huntsville Post established this scholarship to benefit students at the University of Alabama in Huntsville. The Society of American Military Engineers brings together professional engineers and those in engineering-related fields to improve and increase the engineering capabilities of the nation, and to exchange and advance the knowledge of engineering technologies, applications, and practices.

This scholarship is a one-year award and is not renewable. The student must maintain a full-time course load (12 credit hours) and have a cumulative GPA of 2.5 or higher. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards.
