

The Valmore and Frank R. Fogle Scholarship

The Valmore and Frank R. Fogle Scholarship is awarded to a junior or senior student who is majoring in Industrial and Systems Engineering or Electrical and Computer Engineering. The award is based on academic merit and demonstrated leadership potential.

In 1991 the Valmore and Frank R. Fogle Scholarship was established to reward scholarship and hard work by providing financial support to deserving UAH students. During his 30-year career at NASA's Marshall Space Flight Center, Valmore Fogle was actively involved in the nation's space program including the landing of men on the moon. His son, Frank R. Fogle, received his Bachelor, Masters, and Doctorate degrees in Engineering from UAH. While working toward his doctorate, Frank donated his teaching services to UAH in order that the funds could be used to purchase books and technical proceedings for students.

This scholarship is renewable for up to three additional years. The student must maintain a full-time course load (12 credit hours) each semester. In addition, recipients must complete a total of 24 credit hours each academic year, have a cumulative GPA of 3.0 or higher, and **must submit a scholarship application by the priority deadline each year**, providing continued evidence of leadership potential as well as an in-depth statement of career goals, to be eligible for renewal of this award.
