

The Albert E. Schuler - North Alabama ISA Scholarship

The Albert E. Schuler - North Alabama ISA Scholarship is awarded to a full-time undergraduate student who is majoring either within the College of Engineering with preference given to those with demonstrated interest in electronic and/or mechanical instrumentation, or within the College of Science. The award is based on academic merit, financial need, and involvement in community service and/or extracurricular activities. The recipient must join the ISA as a student member and attend occasional Section meetings.

The scholarship was established by the North Alabama Instrumentation, Systems, and Automation Society (ISA) to promote the education of deserving students at the University of Alabama in Huntsville. The Instrumentation, Systems, and Automation Society is an international, non-profit, educational organization which fosters advancement in the theory, design, manufacture, and use of instruments, computers, and systems for measurement and control. An expert in guided missiles, Albert E. Schuler was a member of the German rocket team in Huntsville after World War II.

This scholarship is renewable for up to three additional years. The student must maintain a full-time course load (12 credit hours) each semester. In addition, recipients must complete a total of 24 credit hours each academic year and have a cumulative GPA of 3.0 or higher to be eligible for renewal. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards.
