

## **The Huntsville Electro-Optical Society (HEOS) Annual Scholarship**

The Huntsville Electro-Optical Society (HEOS) Annual Scholarship is awarded to a graduate student at the University of Alabama in Huntsville, with preference given to applicants majoring in optics or electro-optics. Applicants must complete both the basic UAH scholarship application and the official HEOS application, detailing optics areas of interest and research activities. The recipient of this award will be required to give a presentation related to his/her area of optics research at one of the monthly HEOS meetings during the academic year of receipt.

The Huntsville Electro-Optical Society (HEOS) is open to all with appropriate training, experience, or interest in any branch of optics or electro-optics: research, instruction, optical or illumination engineering, the manufacture and distribution of optical instruments, or physiological and medical optics.

This scholarship is for one year only; however, recipients may re-apply to be eligible for possible renewal for one additional year of scholarship award. The student must maintain a full-time course load (9 credit hours) each semester. In addition, recipients must complete a total of 18 credit hours each academic year, have a cumulative GPA of 3.4 or higher, and must submit a scholarship application by the priority deadline to be eligible for possible renewal. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards
