

The Nektar Therapeutics Chemistry Annual Scholarship

The Nektar Therapeutics Chemistry Annual Scholarship is awarded to a student majoring in chemistry with preference given to junior and senior level students. The award is based on academic merit and citizenship, without regard to financial need. Eligible applicants must be interested in pursuing a career in professional fields related to the study of chemistry. Pre-med students are not eligible for this award.

Nektar Therapeutics is a pioneer and leader in advanced drug delivery technologies that enable highly differentiated products. The goal of this company is to help its pharmaceutical and biotechnology partners realize the full potential of their molecules by solving complex development challenges to create breakthrough therapeutics, extend product franchises, and fuel product pipelines. Nektar Therapeutics established this scholarship fund for the benefit of students pursuing a bachelor's degree in Chemistry at The University of Alabama in Huntsville.

This scholarship is a one-year award and is not renewable. The student must maintain a full-time course load (undergraduate - 12 credit hours, or graduate - 9 credit hours) and have a cumulative GPA of 3.0 or higher. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards.
