

The R. J. Hung Scholarship

The Ru J. Hung Scholarship is awarded to a full-time student majoring in Mechanical or Aerospace Engineering. The award is based on academic merit.

The scholarship was established in 1997 by Nancy Hung in loving memory of her husband, Dr. Ru J. Hung, who served as UAH professor of Mechanical Engineering. This scholarship helps sustain the positive influence that Dr. Hung had on students. He made a difference in many lives through his teaching and research.

This scholarship is renewable for up to three additional years. The student must maintain a full-time course load (12 credit hours) each semester. In addition, recipients must complete a total of 24 credit hours each academic year and have a cumulative GPA of 3.0 or higher to be eligible for renewal. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards.
