

Braj K. and Indira Singh Distinguished Scholarship

The Braj K. and Indira Singh Distinguished Scholarship is awarded to any graduate or undergraduate student with a promising career, evidence of leadership and service to the community, and demonstrated financial need.

This scholarship is established in appreciation of Dr. Jerome J. Brainerd, Head of the Department of Mechanical and Aerospace Engineering, who offered a Research Assistantship to B. K. Singh in 1969. This Assistantship enabled Mr. Singh to come to the USA from a village in India to pursue graduate studies in engineering, and subsequently provided a great opportunity for him and his children to excel in engineering, computer science, and medicine.

This scholarship is renewable for up to two additional years. The student must maintain a full-time course load (undergraduate - 12 credit hours, or graduate - 9 credit hours) and have a cumulative GPA of 3.0 or higher.
