

BIOTRAIN

2020

INTERNSHIP PROGRAM

June 1 – July 31, 2020

Connect your classwork to the real world and gain skills and knowledge that will prepare you for higher education and a science-related career. **HudsonAlpha BioTrain Internships** will provide you with an authentic professional experience in the realm of genetics, genomics, and biotechnology this summer.

We are looking for students interested in computer programming, data analysis, plant genetics, lab research, industrial design, marketing, business, science education, and bioinformatics. A wide variety of positions are available across HudsonAlpha Institute and our associated life science companies. Check out our web page to read all the open positions: hudsonalpha.org/biotrain/biotrain-summer-positions/

Visit HudsonAlpha.org/biotrain to get more information and learn how to apply

The **HudsonAlpha BioTrain Internships** are paid positions for nine weeks each summer in Huntsville. If needed, housing is provided free. Each internship opportunity is crafted with specific skill sets in mind and will be open to participants based on their educational level and area of concentration. Eligible students must be enrolled in an Alabama college or a permanent resident of Alabama and attending college elsewhere.

Applications for the [2020 BioTrain Internship program](https://HudsonAlpha.org/biotrain) will be open January 15 - February 15, 2020.
