## Application for Assistantship

Please complete if you are seeking a graduate assistantship AND you have been admitted. A graduate assistant works with a faculty member or research scientist in academic class instruction or critical support in research endeavors. A graduate assistantship is a paid university position and helps defray the cost of a graduate education. Assistantships are *highly* competitive. Please note, your department may have an additional application to complete for an assistantship.

| Today's Date  |                        | Program                    |
|---|------------------------|----------------------------|
| Name  |                        |                            |
| Street Address  |                        |                            |
