

APPLICATION FOR ASSISTANTSHIP

Please complete this application if you are seeking a graduate assistantship. A graduate assistantship is a paid university position and helps defray the cost of a graduate education. Assistantships are *highly* competitive and are available for full-time students. This application should be submitted when you apply to a masters or doctorate program within the application portal. Assistantships are determined by the department and repeated inquiry regarding your status is discouraged. You will be contacted if you receive an assistantship after you have been successfully admitted.
