

H. Surangi N. Jayawardena
Assistant Professor
Department of Chemistry
University of Alabama, Huntsville

surangi.jayawardena@uah.edu
978-821-8495

SUMMARY

- Ph.D. Chemistry – surface chemistry modifications of colloidal systems for biological applications

EDUCATION

Postdoctoral Experience Massachusetts Institute of Technology	November 2014 – August 2017 Cambridge, MA
Ph.D. Chemistry (GPA 4.0) University of Massachusetts, Lowell	September, 2009 - November 2014 Lowell, MA
B. Sc. (Hons.) Chemistry University of Colombo	May 2004 – June 2008 Colombo, Sri Lanka

RESEARCH EXPERIENCE

Postdoctoral Experience (Key Research) Massachusetts Institute of Technology	November 2014 – August 2017 Cambridge, MA
--	--

P.I Prof. Robert Langer

On patient vaccine record system- funded by Bill and Melinda Gates Foundation

- Development of a photostable and chemically inert fluorescent code system using near infrared fluorescing quantum dots, that are applied subcutaneously using a microneedle patch, where the signal could be detected through the skin and analyzed by a smart phone application.

Vaccine formulation and degradation studies - funded by Bill and Melinda Gates Foundation

- Screening of novel thermostabilizing excipient formulation to store Sabin oral polio vaccine serotypes T1, T2 and T3 at 37 °C to eliminate need for cold storage facilities.

Ph.D. Doctoral Research (Key Research) University of Massachusetts, Lowell
--

P.I and Ph.D. Advisor Prof. Mingdi Yan

- Synthesis of novel carbohydrate and antibiotic conjugated nanomaterial – glyconanomaterials and glyconanoantibiotics to strain specifically target bacteria and deliver antibiotics.
- Use of glyconanomaterials in patterning carbohydrate arrays for proteins.

AWARDS

-
1. Tripathy Memorial Summer Graduate Fellowship – 2014 - University of Massachusetts Lowell
 2. College of Science – Outstanding Graduate Research Award – Chemistry, 2014 - University of Massachusetts Lowell
