EDUCATION

M.A. in English, The University of Alabama in Huntsville (May 2021)

Capstone Project: *Body of* - A manuscript of poetry, short fiction, and flash fiction

that explores the intricacies of various bodies—human, nonhuman, real, imagined, living, or void of life—while immersing the reader in a dark and peculiar space.

Committee: Ms. Anna Weber (Advisor) and Dr. Rebecca Hazelwood

B.A. in English, The University of Alabama in Huntsville (Dec 2018)

Minor: Technical Writing

Part-time/On-Call Development Writer/Editor, The University of Alabama in Huntsville (Mar 2023-June 2023)

I worked independently and in collaboration with the Vice President for University Advancement (VPUA) and Development staff, to produce and perfect written content, in both print and electronic formats, that effectively communicates all fund-raising facets to a vast range of specific audiences. My work supported the communications of the Office of Development team and the University community at-large, by assisting in fund-raising and marketing efforts. I also partnered closely with key members to collect, distill, and accurately interpret programs and initiatives, and effectively express information in the form of compelling and visionary fundraising collateral to support UAH’s front-line fundraisers.

I developed, researched, wrote, and edited original content that effectively communicates the University’s fund-raising endeavors. I also supported the VPUA and Development team in proofreading, copyediting, and fact-checking projects as well as marketing projects, where I assisted the VPUA in identifying key areas in which to promote the University’s Development efforts on a daily basis, collaborating with academic, research, and administrative leaders across the University to support their Development communications goals.

GRA, The University of Alabama in Huntsville (Aug 2019-May 2021)

I worked for the English Department during this time, writing and editing documentation in support of the Department of Justice.

Intern, NASA (May 2018-August 2018)

I worked for NASA during the summer as an intern, editing digital submissions for the Journal of the British Interplanetary Society to ensure publication.
