INTERNET SERVICE

Several companies are offering free internet services to those who do not currently have it.

Charter:

Charter will offer free Spectrum broadband and Wi-Fi access for 60 days to households with K-12 and/or college students who do not already have a Spectrum broadband subscription and at any service level up to 100 Mbps. To enroll call 1-844-488-8395. Installation fees will be waived for new student households.

Comcast:

We will make it even easier for low-income families who live in a Comcast service area to sign up by offering new customers 60 days of complimentary Internet Essentials service, which is normally available to all qualified low-income households for $9.95/month.

REMOTE ACCESS TO LABS

Remote Lab:

Remote Lab in a technology that allows you easily create and manage virtual labs. Our definition of virtual lab means a user can connect to the desktop of a computer from anywhere without the requirement of being in a specific physical place.

https://mafudge.github.io/remotelab/

Myrtille:

Myrtille is a straightforward way to connect remote desktops and applications, hosted on Windows Servers and using the RDP protocol, from a web browser. New in version 2.0! SSH support.

https://cedrozor.github.io/myrtille/

Guacamole:

Apache Guacamole is a clientless remote desktop gateway. It supports standard protocols like VNC, RDP, and SSH.

<u>ADOBE CREATIVE CLOUD:</u>

We do not have a campus-wide license for Adobe. They are offering to extend Creative Cloud to campuses. We will have to accept terms and conditions. It appears to be a checkbox that could obligate the university.

Terms and Conditions

These temporary licenses are provided pursuant to your existing agreement for use of Adobe creative software and will be available until May 31, 2020 or until your students return to campus, whichever is sooner. As a reminder, if you are assigning this temporary license to a student where local laws require parental consent, you are responsible for obtaining any required parental permissions before allowing the student to use the software.

As of the end date, users within your org will be returned to their entitlement level prior to the temporary license request. Any assets created will be accessible by student but subject to the restrictions based on their storage entitlement. The temporary licenses are provided at Adobe's sole discretion.

By submitting this request for Adobe to provision users with temporary licenses, you agree to these conditions and the existing license terms and conditions.
