

Tracy Lamm

Director, Human Exploration Advanced Capabilities
Lockheed Martin Space

A space industry veteran with over 37 years of experience, Tracy Lamm currently serves as director for Lockheed Martin Space. In this role, Lamm leads the company's strategy, technology roadmaps, and maturation for human exploration transportation, habitation, and mobility systems.

Lamm has also served as the Chief Operating Officer for the Manned Space Flight Education Foundation and Space Center Houston, a leading science and space exploration learning center. He has also held leadership positions in business development, marketing and strategy with Pratt & Whitney Rocketdyne. He also served nearly two decades with NASA as a government relations officer and acquisition professional for Marshall Space Flight Center.

He earned a Master of Science degree in contracting from the Florida Institute of Technology. He received bachelors of science degrees in business administration with majors in management, marketing and in procurement from the University of Alabama in Huntsville. He is an associate fellow of the American Institute of Aeronautics and Astronautics, and also emeritus director for the National Space Club Huntsville and Manned Space Flight Operations Association nonprofit organizations.
