GenCyber CYBER CHARGED

A cybersecurity summer camp for teachers and teachers-in-training from North AL, hosted at the **University of Alabama in Huntsville**

June 11-15   or   June 18-22
8:30am – 4:30pm

Public school teachers and teachers-in-training are invited to register for a day-camp (Monday-Friday) at UAH where they will learn basic cybersecurity and computing skills. GenCyber will create cyber-savvy educators through hands-on lab exercises, demos, and group-based curriculum development sessions. No prior knowledge in cybersecurity is expected, and only a basic understanding of computers is required. We encourage at least two teachers from each school to attend. Lunch and a $400 stipend are provided.

Camp Topics

- Cybersecurity Principles
- Build a Computer
- Virtual Machine Setup
- Curriculum Development

- Social Engineering
- Staying Safe Online
- Cyber Attack Demos
- STEM Tour (3D Printing, Drones, Oculus Rift)

- Basic Programming
- Command Line
- Network Recon
- Cryptography
- Digital Forensics
