

August 2020

Mehmet Sarp Yalim, Ph.D. in Engineering Sciences

EDUCATION AND DEGREES: BS (2000) and MS (2002) with *High honor* in Mechanical Engineering, Department of Mechanical Engineering at Middle East Technical University, Ankara, Turkey (CGPA – BS: 3.56/4 & CGPA – MS: 3.93/4); Diploma course in Aeronautics and Aerospace with *Honours*, Department of Aeronautics and Aerospace at von Karman Institute for Fluid Dynamics, Sint-Genesius-Rode, Belgium (2004) (Overall grade: 82/100); Ph.D. in Engineering Sciences, Faculty of Applied Sciences, Free University of Brussels (ULB), Brussels, Belgium (2008).

RESEARCH INTERESTS: Observational solar physics, solar atmosphere modeling, space weather, computational fluid dynamics, numerical methods, scientific code development, parallel computing.

CURRENT POSITION: Research Scientist I, The University of Alabama in Huntsville (UAH), Center for Space Plasma and Aeronomics Research (CSPAR)

ADDRESS: UAH, CSPAR/NSSTC, 320 Sparkman Dr., CH-2043, Huntsville, AL 35805. Phone: (256) 961-7068. Fax: (256) 961-7730. E-mail: msy0002@uah.edu

SELECTED WORK EXPERIENCE: Postdoctoral Research Assistant, CSPAR, UAH, Huntsville, AL, Jul 2015-Mar 2019; Postdoctoral Research Associate, Center for mathematical Plasma Astrophysics, Catholic University of Leuven (KU Leuven), Leuven, Belgium, Dec 2008-Jul 2009 and Nov 2009-Dec 2013; Research Assistant, Department of Solar Physics, Royal Observatory of Belgium, Brussels, Belgium, Aug 2009-Oct 2009

SYNERGISTIC ACTIVITIES: Reviewer for NSF proposals (2020); Reviewer for AAS Journals (2017-), Experimental Astronomy Journal (2014); Program Coordinator - UAH CSPAR/NASA MSFC Heliophysics NSF REU Program (May 2019-)

AWARDS & GRANTS: S.T. Wu CSPAR Performance Award (2019); “Development of a Data-driven Magnetohydrodynamic Simulation Model for Flux-Emerging Active Regions Leading to Coronal Mass Ejections” (NSF AGS-2020703) - \$437,188

GRADUATE STUDENTS: Advisor: Talwinder Singh (UAH); Michel Rasquin, Radka Keslerova (von Karman Institute for Fluid Dynamics)

TEACHING ACTIVITIES:

Spring 2020 Assisted Prof. Dr. Nikolai Pogorelov in his graduate level course “Astrophysical Fluid Dynamics” at the Department of Space Science, UAH by giving lectures and proctoring exams.

Fall 2019 Assisted Prof. Dr. Nikolai Pogorelov in his graduate level course “Introduction to Plasma Physics” at the Department of Space Science, UAH by giving lectures.

Summer 2019 Gave a lecture and a tutorial on “Introduction to Space Weather” to the NSF REU students in the frame of the UAH CSPAR/NASA MSFC Heliophysics NSF REU program; as the Program Coordinator, scheduled and coordinated lectures, tutorials and activities for the REU students, chaired progress meetings, and poster and presentation sessions.

Spring 2017 Assisted Prof. Dr. Nikolai Pogorelov in his graduate level course “CFD&MHD” by giving lectures at the Department of Space Science, UAH.

Fall 2015 Assisted Prof. Dr. Nikolai Pogorelov in his graduate level course “Introduction to Plasma Physics” at the Department of Space Science, UAH by giving lectures, grading homework assignments and proctoring exams.

Spring 2013 Assisted Prof. Dr. Stefaan Poedts as advisor of the Bachelor’s thesis project entitled “Exploring Solar Coronal Magnetic Fields Using PFSS Model” for mathematics and physics undergraduate students at the Catholic University of Leuven, Belgium. Accordingly, organized weekly progress meetings, prepared tutorials and taught the essential material for the realization of the project topic and guided the students through the realization of their projects as well as proofread their project reports.

2011-2013 Assisted Prof. Dr. Stefaan Poedts in his graduate-level course for mathematics and physics students entitled “Plasma Physics of the Sun” (B- KUL- G0B28A) at the Catholic University of Leuven, Belgium.
