The goal of the Open House is showcasing Science, Technology, Engineering, and Mathematics (STEM) activities across Alabama. The meeting will feature over 100 posters from graduate and undergraduate students from across the state of Alabama to showcase their research and provide a platform for networking among faculty, students, and industry representatives. The meeting will also include science presentations and hands-on demonstrations for K-12 teachers and students.

This event is sponsored by the NSF EPSCoR RII-Track-1 Cooperative Agreement OIA-1655280
