NIST 800-171 COMPLIANCE WORKSHOP

FOR SMALL & MEDIUM ENTERPRISES AND DEFENSE SUPPLIERS

The University of Alabama in Huntsville Office for Operational Excellence

We are sorry you missed the Cybersecurity Workshop for DoD Suppliers

US Defense Suppliers Compliance

All DOD suppliers that fall anywhere within the supply chain and handle Controlled Unclassified Information (CUI) are required to have certain controls in place to protect that information.

The regulation requiring the protection is DFARS 252.204-7012 " and the controls are described in NIST SP 800-171

National Institute of
Standards and Technology
ILS Department of Commerce

NIST Special Publication 800-171

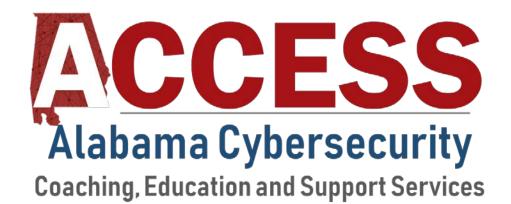

Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations

At the workshop, participants gained a better understanding of:

- Cybersecurity threats, risks and impacts
- DoD mandatory cybersecurity compliance requirements
- Resources that aid in NIST 800-171 compliance
- Support available to Alabama companies through a DoD grant

IF YOUR ORGANIZATION SUPPORTS DoD AT ANY LEVEL OF THE SUPPLY CHAIN

YOU SHOULD CONTACT US TODAY ABOUT THIS GRANT

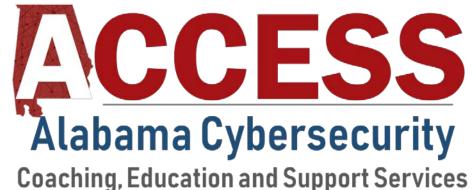

Alabama organizations that are currently supporting the DoD or organizations that require compliance to bid or renew a DoD contract may qualify for ACCESS Program support.

See reverse side for details

www.uah.edu/ooe/access

ACCESS Program Grant Services

Qualified companies can receive grant services to help them with the primary components required for NIST 800-171 compliance.

Coacining, Education and Suppo

Required elements for NIST 800-171 compliance...

Grant services are available to assist in developing these required elements

Assessment

Conduct Assessment to NIST SP 800-171 and define system gaps

Plan of Action

Develop Plan of Action and Milestones (POAM) to close gaps

System Security Plan

Develop/Update System Security Plan (SSP)

READY FOR IMPLEMENTATION TO BE NIST 800-171 COMPLIANT

Execution

Execute Plan of Action and Milestones and Update SSP

Support is available in 2 levels...

Assessment & Gap Report Support

Assessment

Our team will work with you to conduct an interactive and comprehensive evaluation of NIST 800-171r1 cybersecurity controls against your current systems and network.

Gap Report

Your organization will receive a gap report that will show your businesses detailed needs for improvement based on assessment results

Planning Development Support

Plan of Action and Milestones

Following the assessment, our team will work with your organization to develop an action plan to close cybersecurity gaps within your business

System Security Plan

You will receive support in constructing or enhancing a custom system security plan
